An Applicated Family.—The family of the late

James Edmonston has been sorely afflicted, indeed
almost extinguished by the hand of death. On

Wednesday last he died himself, before his corpse
was removed from the dwelling, a colored woman
in the family took sick and soon after died, and yes
in the family took sick and soon after died, and yesterday morning the widow of Mr. E. departed this life, having been taken ill on Sunday. A colored man in the family was taken sick yesterday evening, and was removed to the hospital. The child, about three months old, is not dead, as reported, nor is the son, ag d thirteen years, ill. Such severe affliction, however, has seldom befel one family in so short a period. The cause is ascribed to improper diet, as the neighborhood, Massachusetts avenue, between 5th and 6th streets, is remarkably healthy. Drs. Elliott and Johnson were the attending physicians.

A COLLISION ON THE POTOMAC .- On Thursday night, about half-past 10 o'clock, the steamer Mount Vernon, which was going towards Aquia Creek, ran into a large sized schooner loaded down with oysters. The schooner was carrying no light, notwith-standing the night was very dark. A moment previous to the collision the engines of the Mount Vernon, however, were reversed, and the steamer veered out of her course, so as to cause the shock to fall on the stern of the schooner, crushing in her bulwarks and carrying away a small sail, but not apparently doing further damage. The steamer was not materially injured.

BROWN'S ESSENCE OF JAMAICA GINGER.—This Essence is warranted to possess, in a concentrated form, all the valuable properties of Jamaica Ginger, and will be found on trial an excellent family medicine. It is particularly recommended as a tonic to persons recovering from fever or other discuses, a few drops imparting to the stomach a glow and discuses, a few drops imparting to the stomach a glow and vigor equal to a wine-glassful of brandy or other stimulant without any of the debilitating effects which are sure to follow the use of liquor of any kind; and it is therefore especially serviceable to children and females. To the aged it will prove a great comfort, to the dyspeptic, and to those who are predisposed to gout or rheumatic affections it gives great relief; and to the inebriate who wishes to reform, but whose stomach is constantly craving the noxious liquor, it is invaluable—giving tone to the digestive organs, and strength to resist temptation and is consequently a great agent in the cause of temperance. es Ir should be universally known-for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases. Dysentery, diarrhosa, cholera morbus, liver, complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspeptics; think of it all who suffer from disordered stomachs, and if you are willing be guided by advice, founded upon experience, resort at once—don't delay a day—to Hoofiand's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative curative, and invigorant, stands alone and unapproached. We have tried the Bitters; and know that they are excellent for the diseases specified above.
